ABOUT RISE BUSINESS ACADEMY

RISE Business Academy is a 12-week program focused on developing a positive business in the community. It is tailored to people and their family members 18 years of age and older, who have lived experience with the criminal justice system.

Participants walk through a rigorous process of developing a strong business plan, are partnered with a Business Coach and culminate with a business pitch competition in front of a panel of judges in order to graduate from the program.

This program promotes self-sufficiency, independence, and economic growth in our community by offering a range of support and resources for our participants to start their own businesses.

DETAILS

For individuals or families with lived experience in the criminal justice system who:

Have a strong business idea they are ready to start.

Already have a business and want to formalize it or give it structure.

Must have been released for at least one year.
